1. Introduction

This document is the Summary Evaluation Report of the first EUCF call, and covers key figures and graphs about the EUCF evaluation result.

This document contains information on the number of “submitted application”, “rejected application in doc-check”, “rejected application in evaluation phase” and “selected application” per region and per country, as well as information on final selected municipalities and the sectors in which the successful applicants develop their investment concepts.

2. Evaluation result

Overall, 257 applications were submitted within the first EUCF call. 42 application were rejected after the documents check phase. Out of 185 applications which successfully passed the documents check, 30 were selected as final successful applications within the first EUCF call. The evaluation result is detailed per region and country below.

2.1 Evaluation result per region

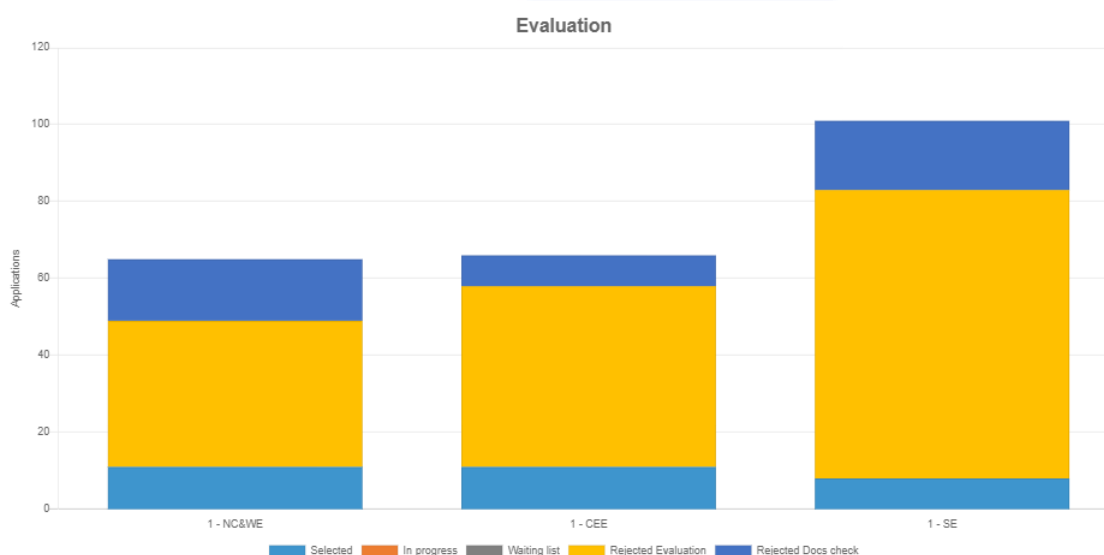

The Table 1 presents the number of “submitted application”, “rejected application in doc-check” phase, “rejected application in evaluation phase” and “selected application” per region.

Table 1

	Submitted applications	Rejected application in doc-check	Rejected application in evaluation	Selected application
